

I am writing on behalf of K-LOVE or 91.1 here in Fresno, CA. K-LOVE serves my community by encouraging other believers to pray by their Christian music. They are very positive, they have wholesome values and have a very important spiritual impact on believers and nonbelievers in the community.

If K-LOVE were to be taken off the air it would be a great loss to not just myself but to thousands of other listeners. It would take away opportunities to pray for others, close doors that should be open, and make the community even more depressed spiritually than it is now.

K-LOVE provides alternative music that is positive, encouraging, spiritual and family oriented. With K-LOVE you do not have to worry about the type of music your children are listening to. You don't have to listen for curse words and derogatory remarks, because K-LOVE does not do any of that. It is uplifting not just junk. I truly enjoy listening to K-LOVE and hope that you will keep it on the air. Low Power FM may be alright for some people but those of who listen to K-LOVE prefer that it stays on the air. Do not take K-LOVE off the air.
